

Messrs. The Furness Shipbuilding Co's No. 283.

Plans of riveting section, upper stringer, lower stringer, stringers in oil fuel bunkers, and key plan of stringers submitted, in triplicate, by the Middlesbrough Surveyors.

It is submitted the Surveyors be informed that the scantlings and arrangements as shewn and amended on the plans will be approved, provided they be carried out to their satisfaction.

The Surveyors should be further informed that the plan of riveting section has been discussed by telephone with Mr. Goldsbrough, who stated that the thicknesses of the upper deck plating will probably be modified (and a further plan submitted) involving an alteration in the size of the rivets used. In these circumstances it was arranged that in the meantime this plan should be regarded as cancelled, and has not been dealt with.
