Ref:- WR/HL.
Electrical Dept.

13th July, 1938.

Dear Sirs,

E.

Your Yard Nos. 283 and 300.
Pump Room Fittings.

With reference to my letter of the 30th ultimo and previous correspondence relating to the provision of ventilating holes in the steel casing which surrounds the pump room fitting on the deck of the above vessels, I have to acquaint you that this matter has recently been discussed in this Office with the Owners of these vessels, and as it is now understood that the whole of the box which projects into the pump room is hermetically sealed no exception will be taken to the arrangement shown on the original plans.

In the circumstances the ventilating arrangements shown in the amendment can be omitted provided the fitting is otherwise in accordance with the requirements of this Society's Rules and to the satisfaction of the Society's Surveyors.

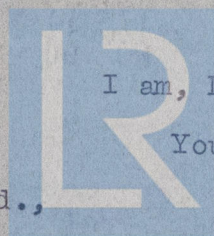

I am, Dear Sirs,

Yours faithfully,

Messrs. Furness Shipbuilding Co. Ltd.,
Haverton Hill-on-Tees,
Billingham, Co. Durham.

Secretary.
