Lloyd's Register of Shipping,

71, Fenchurch Street, E.C.3.

17th May, 1938.

Dear Sirs,

E.

I duly received your letter of the 11th instant in further reference to the electrical equipment proposed for The Furness Shipbuilding Co's Yard Nos. 283 and 300, and note what you have to say on the subject.

In order that the matter may receive full consideration, however, I shall be glad if you will submit detailed plans of the ventilation and oil piping arrangements of the bridge space.

I may add that it is a requirement of Section 15 of the Rules for Electrical Equipment that cables in tween deck spaces be led in gas-tight tubing, but provided the space be adequately ventilated and there be no glands or cargo oil pipes in this space, special consideration will be given to the Shipbuilders' request.

I am, Dear Sirs,

Yours faithfully,

The Surveyors,
SUNDERLAND.
