Dear Sir,

s s " Athendale "

I have been asked by a Greek friend of mine, who is desirous of purchasing this steamer, to enquire whether your Committee would, in the event of his so doing, grant an extension of the Class for a sufficient period, to allow him to load the steamer in this Country and to take her to Greece to complete the Survey, part of which I understand has already been done.

I shall therefore be pleased to hear that your Committee will accede to his request.

Esteeming the favor of your reply,

I am,

Yours faithfully,

James E. Marshall
