

18th Oct. 1906

Gentlemen.

I beg to inform you that the new
S.S. San Hong Liong has been fitted with an
Electric light installation, and to complete
the survey of this, the engine should be
seen working with the lights on. The
Contractors are sending men round with
the S.S. so that on arrival at Barry it
may be ready for your inspection.
Will you kindly give the necessary
attention.

I am, Gentlemen
Your Obedient Servant
James Barclay

The Surveyors
Barry.
