Dear Sirs,

Re Sailing ship "GUNN"

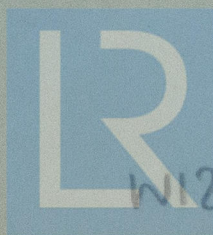

We beg to send you enclosed herewith the agreement you had sent us in your esteemed favour of the 27th May last and we have duly signed it. As in our town there is no dry dock or repairing slip, it is obvious that the ship must sail from here to another place for a survey of the bottom plates.

here

We have thought of effecting the classification of the rigging and the part of the hull above water, if possible, this autumn or at the beginning of spring, so far as the ship can be chartered.

Yours etc.

Correspondent shipowner.
