

s.s. "SINGU"  
-----

The Calcutta Surveyor reports by cable that the general reduction which has taken place in the thickness of the shell plating is 10%, and that all deck plates and a large number of shell plates fore and aft have been renewed at previous surveys. *no reference in reports!*

It is submitted he be informed that his communication is noted, but that as from his report there appear to be some isolated plates which are considerably wasted, the proposal to deal with these at the dry docking survey to be held in Calcutta early next year will be approved.

It is further submitted the following cablegram be sent to the Surveyor :-

"IN VIEW INFORMATION CONTAINED YOUR CABLE PROPOSAL DEAL WITH ISOLATED WASTED PLATES AT DRYDOCKING SURVEY TO BE HELD CALCUTTA EARLY NEXT YEAR APPROVED".
