A letter from the Owners, dated the 14th ultimo, respecting these five vessels has been forwarded through the Society's New York Office, in which they state that it has been decided to dispense with the carrying of dual classification on their vessels, and they therefore request that the classification of the above tankers with this Society be now withdrawn.

The American Committee had the cases before them on the 22nd ultimo, when they decided to give instructions for the vessels' characters to be withdrawn from the Register Book and three dots (...) inserted in lieu thereof, in each case, indicating withdrawal of class at Owners' request.

7th July, 1932.
