Survey Due

Screwshaft Survey due April, 1932.

In May last the Owners stated that this vessel would be brought in shortly for the Hull and Machinery Survey and that they desired to postpone the above survey in order that it might be carried out at the same time.

The Owners now write that the question of scrapping this vessel in the near future is under consideration and that they will advise this Office when a decision has been made in the matter.

Submitted action be deferred.
