

I called on Mr. Veale of the Orient Line, and explained to him that the final reports on the steamer "ORMUZ" were in this Office, and that she would be closed.

Memo. respecting incomplete survey on  
the S/S Ormuz. 14588 tons.

London 13<sup>th</sup> November 1922

The Owners representative states that owing to the limited time this vessel was in port the hand pump could not be fitted but arrangements have been made for the pump to be fitted on her return from present voyage.

Norman Dixon  
Surveyor.

FOR MR. S. A. HILL.
