Classed: 100A1 LMC 4,30
 Stm. Trawler NBL2,16
 s.s.Ams.No.3-12,16
 s.s.Ymu.No.2-26

The Second Special Survey No.3, due 12,28 has been partly held and to complete the same all the Rule requirements remain to be carried out except the examination of the vessel in dry dock, the drilling of the shell plating and the machinery survey.

The case has received the consideration of the Committee from time to time and on the 19th ultimo the Owners' Manager was informed that unless the survey was put in hand not later than the end of the following week the Committee would have no alternative but to expunge the vessel's class from the Register Book, and he was requested to reply by return of post whether he would comply with this requirement.

In reply he stated "the survey will not be held before the end of December and if not granted the delay referred to, your Committee are authorized to strike out the ship's name from your classification list."

The year of grace expired at the end of December last, and in all the circumstances, the Classing Committee, who again had the case before them on the 30th ultimo, decided to give instructions for the vessel's class to be expunged from the Register Book with a Red Line (—), indicating non-compliance with the Rules.
