Received from Chief Surveyors

VESSEL'S NAME *Stt Sch Balder* Report *Ans* No. *11886*

For the CHIEF SHIP SURVEYOR and CHIEF ENGINEER SURVEYOR

(In cases which have to be submitted to the Classing Committee "the endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case so that the Classing Committee may have all the salient points presented in the endorsement." - Extract from Sub-Committee's Report 24/5/92.)

2nd No. 3 SURVEY PARTLY HELD.

When due 12.28 When proposed to be completed

Portion of Survey held, &c., *Held on machinery*

The 2nd S.S. No. 3, due 12.28, has been partly held and to complete same all Rule requirements remain to be carried out except the examination in dry dock, drilling of shell plating and machinery survey.

A proposal to complete the survey in May last was agreed to.

In reply to enquiry the Amsterdam Surveyors stated in June last that they had been informed by the Owners that the survey would be completed in the course of the summer.

The case received consideration on the 13th June when action was deferred and the Surveyors requested to point out to the Owners that as the special survey became due so long ago as December 1928, if the vessel was to retain her class, definite arrangements must be made for the remaining requirements to be complied with, within the next three months.

In reply to further enquiry the Amsterdam Surveyors now state that the Owners inform them that the survey will be completed before the end of December without fail and ask that this proposal may be agreed to.

The year of grace expired 12.29.

The case is submitted for the consideration of the Committee.
