8th November, 1926.

Dear Sirs,

With reference to your letter of the 4th instant, respecting the machinery of the s.s. "KIAN GWAN", I have to acquaint you that in view of the additional main bilge line suction that has been fitted, and also to the increased size of these suctions, the existing donkey pump direct bilge suction of 3" bore will be accepted in this instance as being fully equivalent to the requirements of the Rules.

I am, Dear Sirs,

Yours faithfully,

Secretary.

The Surveyors,

ROTTERDAM.
