The Special Survey No.1 on each of these vessels became due in September last.

In reply to enquiry the Owners state that they do not desire to continue the classification of these barges. They add that the "I" barges are used in the Harbour off Talara, Peru, while the "T" barges are used on the Magdalena River, Colombia, and it is therefore not considered desirable to retain their class.

The cases received the consideration of the Classing Committee on Friday, 14th November, when it was decided to give instructions for each vessel's class to be withdrawn from the Register Book and three dots (...) inserted in lieu thereof, indicating withdrawal of class at Owners' request.
