Last Report No. _____ Port _____	Date of Special Survey, _____ Date of last Survey and of _____ Periodical Surveys, _____	Yes _____ Assigned _____ Survey _____ (including date of N.B., if any).
-------------------------------------	--	--

Particulars of Examination and Repairs (if any) \_\_\_\_\_

Periodical Surveys, when held, must be reported in detail and verbatim in the terms of the Rules. State clearly the

cause of repairs, if any, and, in detail, the nature and extent of examinations and subsequent repairs. Repairs on account of damage (the cause of which must be stated) should be separated from repairs due to other causes; and besides being detailed in the body of the report, should be briefly summarised at the end of the report. State also the date and initials of any letters respecting this case.

damage cases where the Surveyor has not made a special damage report he is required to state whether he offered his services for this purpose, and why they were not used.

d the Surveyor personally go inside each Main Boiler separately and make a thorough examination at this time?

Do.	"	Donkey	"	"	"
-----	---	--------	---	---	---

this was not done, state for what reasons?.....

did what parts of the Bollers could not be thus thoroughly examined?

so what special means, in the absence of internal examination, were adopted by the

Surveyor to assure himself of the thorough efficiency of those parts of each Boiler? )  
 d the Surveyor examine the Safety Valves of the Main Boiler? To what pressure were they afterwards adjusted under steam?

d the Surveyor examine the Safety Valves of Donkey Beller?..... To what pressure were they afterwards adjusted under steam?.....

and the Surveyor examine all the manholes, doors and their fastenings of the Main Boilers? ....., and of the Donkey Boiler? .....

Did the Surveyor examine all the mountings of the Main Boilers? \_\_\_\_\_, and of the Donkey Boiler? \_\_\_\_\_

Is screw shaft now been drawn and examined? ..... Is it fitted with continuous liner? ..... or two liners? ..... or is it without liners? .....

is shaft now been changed?..... If so, state reasons.....

the shaft now fitted new? ..... Has it a continuous liner? ..... or two liners? ..... or is it without liners? .....

the design is not complete state what arrangements have been made for its completion and what remains to be done? *complete.*

The survey is not complete state what arrangements have been made.

At the works of Messrs Donaldson & Seabrook Fisher St Barking

London, E. examined and tested two 6" Donst's patent expansion

Joins.

The above joints were tested by hydraulic pressure to 450 lbs per sq in.

and found sound and tight. These joints are intended for the use

Reset now building on the bridge.

For identification the junk marked with

*General Observations, Opinion, and Recommendation:—*

any alteration required to be made in the records of the vessel's machinery, boilers, working pressures, &c.: thus, for example, M.S. 011, B.&M.S. 011, or  $\frac{1}{2}$  L.M.C. 140 lb., I.D., &c.)

The above is reported for the information of the Committee.
