

June 12th, 1942

The Principal Surveyor,
New York, N.Y.

Dear Sir:

S.S. "STEEL AGE"

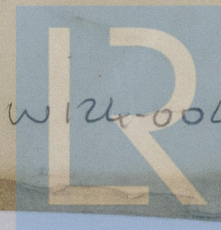

I have your letter of 4th May containing remarks from Wokingham regarding Baltimore Report No. 7502 on the above named vessel.

Mr. Stonehouse having had this case in hand, we wrote to him at Aruba and his reply is that the vessel not being a tanker, the exact details of the damage to the shell plates was not recorded and it is regretted that the desired information cannot be furnished.

Yours very truly,

L. B. Buchanan
