Lloyd's Register of Shipping.

Port OF RANGOON,

20th. February 1928.

This is to Certify that

R. P. TAYLOR,

the undersigned Surveyor to this Society did at the request of Messrs. The Burma Oil Co. Ltd., have the newly installed machinery of the steel single screw suction Dredger "Megohn" examined and tested under steam by a competent Engineer Surveyor, who on completion of examination reports to me that he found everything to his satisfaction.

The safety valves of the Boiler were adjusted under steam in the Surveyor's presence and set to release at a working pressure of 140 lbs. per square inch.

I will therefore report to the Committee of this Society, London, accordingly and will recommend that this vessel's machinery be classed ~~2-28~~ *Lmc 2-28* in the Register Book.

Received Survey Fees Rs. 110/-

R. P. Taylor

This Certificate is issued upon the terms of the Rules and Regulations of the Society, which provide that:—
"While the Committee use their best endeavours to ensure that the functions of the Society are properly executed, it is understood that neither the Committee nor the Society are under any circumstances whatever to be held responsible for inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any entry in the Register Book or other publication of the Society, or for any error of judgment, default, or negligence of the Surveyors, or other Officers or Agents of the Society."
