	Cargo battens not fitted	
	Subject to Annual Survey.	

- - - - -

This vessel's Screw Shaft Survey became due in October, 1930, and the Special Survey No.3 in October last.

The Classing Committee have deferred action from time to time, the vessel being in use as a Coal Depot Ship at the port of Lobito.

In November last the Owners wrote that the vessel was then laid up pending sale, and in reply to further enquiry they now write that as the steamer is laid up they propose to allow her class to lapse pending such time as it may become possible to put her through survey at another port.

The Classing Committee had the case before them on Friday, 1st instant, when they decided to give instructions for the vessel's character to be withdrawn from the Register Book and three dots (...) inserted in lieu thereof, indicating withdrawal of class at Owners' request.
