

Scotocraig.

W247-0238

Submitted the Harvegoon  
he informed that if the vessel is  
to leave under her own steam  
the previous instructions must  
be carried out.

If the vessel is to be towed, the  
Boiler to be used for the steering  
engine & windlass pumps must  
be examined in accordance  
with those instructions.

In either event the Harvegoon must also  
satisfy themselves as to the  
condition of the windlass steering  
engine & the necessary pumps.
