

## White Star 17,000 Ton Liner "Arabic."

The twin-screw steamer "Arabic," 17,324 tons, to be shortly placed in commission by the White Star Line, is a handsome vessel with two funnels and two masts, steams about 17-18 knots, is provided with most comfortable accommodation for a total of 2,700 passengers in all three classes, and should prove of great value to the White Star Line for their service between New York, Boston and Mediterranean ports, to which it is contemplated that she will ultimately be transferred, and in which she will be the largest steamer regularly employed.

The "Arabic's" special features comprise for first-class passengers suites of rooms with private bath and toilet, a large number of single-berth rooms, spacious promenade decks, dining saloon fitted with small tables on the restaurant plan, lounge, reading and writing rooms, verandah café, spacious smoke rooms, etc. The accommodation for second-class passengers is of a very superior character. It includes dining saloon, smoke room, social saloon, and most comfortable staterooms fitted with up-to-date appointments in every detail, ranking with those of the finest steamers crossing the Atlantic.

For third-class passengers there are excellent public rooms and spacious sleeping accommodation.
