The Screwshaft Survey became due in September last.

In reply to enquiry the Owners write that as the harbour in which this tug operates is such a long way from any port where the possibilities of docking are available they have decided not to maintain the classification of this vessel with the Society.

The Classing Committee had the case before them on Friday, 30th ultimo, when they decided to give instructions for the vessel's character to be withdrawn from the Register Book and three dots (...) inserted in lieu thereof, indicating withdrawal of class at Owners' request.

5th November, 1931.
