EC

29th July, 1927.

Dear Mr. Fletcher,

Your first entry report from Shanghai on the steamer "HSIN YANGTZE" has been before the Committee to-day, and she has been classed "100A1" with notation +LMC 6.27.

Your report on the machinery states that this vessel has three Scotch single ended boilers. In view of the fact, however, that the approved plan shows only two, I shall be glad if you will kindly let me know whether your report is correct, as of course we shall have to note the number of main boilers in the Register Book.

At the same time, I shall be obliged if you can say whether spare coupling bolts are supplied, as these are not reported.

With kindest regards,

Yours faithfully,

H.L. Fletcher, Esq.,  
GREENOCK.
