Oslo 7th May 1931

LLOYD'S REGISTER OF SHIPPING

OSLO.

S/S "TELLO".

I duly received your letter of the 4th instant and contents noted.

As you are aware this vessel is due for Special Survey no.3 in June next, but I herewith respectfully request to have the same postponed until the vessel has finished her charter to Kirkenes, probably November/December next.

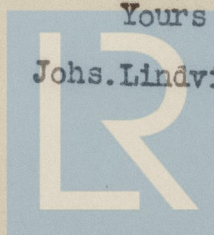

I beg to inform you that the vessel was chartered for these round-voyages last spring, and they give reasonable profit and should the owner have to stop these voyages on account of the survey in June the charterers would certainly cancel the charterparty and place the owner in a very difficult position.

As you may know the present times are so bad, that the vessels sail with more or less loss, and as the "TELLO" has a charterparty which really brings some profit, it is of the greatest importance to the owner, that the postponement is agreed to and also that the survey of the screw shaft be postponed until the Special Survey is carried out.

I await your agreeable answer and sign

Yours faithfully

Johs. Lindvig,
