2 111 (Top)

A letter has been received from the Society's
Principal Surveyor for Holland enclosing one from the Owners'
Managers, stating that it has been decided, for reasons of
economy, to withdraw the classes of these trawlers from the
Society's Register Book.

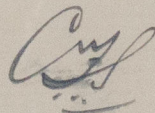

The Surveyor adds that he has had an interview with
the Manager, who regretted very much that this decision had

Cases of 16 Trawlers managed by Messrs. N. V. De Vem, of
Ymuiden (Contd.)

to be taken, but stated that his connection with the Society was such that should, in the future, any new trawler or boiler be ordered, it was his intantion to call in the Society's services in these cases.

It may be mentioned that only three of the above trawlers are at present in active service.

The Classing Committee had the cases before them on Friday, 28th ultimo, when they decided to give instructions for the characger of each vessel to be withdrawn from the Register Book and three dots (...) inserted in lieu thereof, indicating withdrawal of class at Owners' request.

3rd August, 1933.
