25th April, 1933.

Dear Sir,

With reference to the classification in the Society's Register Book of your steamer "PRESTO", I beg to acquaint you that the Committee have had the case before them today, together with a letter from the Society's Genoa Surveyors, enclosing a translation of one they have received from you, intimating that the vessel is still at Nicolaieff, awaiting cargo, and that as soon as she leaves and her destination is known, you will communicate again with them.

In the circumstances the Committee have taken no further action in the matter, but I shall be pleased to hear from you as soon as you are in a position to advise me of the vessel's movements.

I am, Dear Sir,  
Yours faithfully,
