PRESTO". I have to acknowledge the receipt of your  
cablegram of yesterday, as per translation herewith.

The case has been under consideration today, and I have to  
say that the Committee are somewhat surprised at the present  
application for further postponement, in view of the promises  
previously made by the Owner regarding the completion of the  
and Special Survey No.2, but as it would appear that the vessel  
leaving your port tonight the Committee have agreed to  
the remaining items of the survey being left over until the  
vessel has discharged her present cargo in the United Kingdom,  
it must be distinctly understood that definite arrangements

"STANISLAS". Your cablegram of the 7th instant ( as per translation herewith) was not delivered at this Office until the afternoon of Saturday and could not therefore be dealt with until today's meeting of the Committee.

It is not quite clear from this cablegram whether it is intended that the <sup>part</sup> survey indicated is to be carried out at your port after the vessel's return from Sardinia, but, in any case, the Committee desire me to say that they are not prepared to agree to a postponement of the 3rd Special Survey No.2 beyond the end of the present month, and unless the Special Survey and all repairs are carried out by the 31st instant there will be no alternative but to deal with the vessel's class.

My cablegram to you, as per copy herewith, to this effect is hereby confirmed.
