

S.S. "GIULIA PIERCE"

---

This vessel which was built in 1921 without Special Survey  
been partly surveyed for classification!

The Naples Surveyors have forwarded a plan of the new  
key boiler which was made by Messrs. Cochran & Co (Annan) Ltd.  
er British Corporation supervision in 1919 and which has  
n fitted in this vessel.

The scantlings of the boiler, which have been checked  
found in accordance with the plan, meet the requirements  
the Rules in force when the boiler was made for a working  
asure of 100 lbs. per square inch.

It is submitted that this donkey boiler might be accepted  
this instance and a working pressure of 100 lbs. per square  
h assigned.

The Naples Surveyors should be informed accordingly and  
requested to forward particulars of the boiler on Rpt. 5b.

urn boiler plan.
