S.S.No.92 building by William Walker, Maryport.

Equipment No.9435, letter "h".

---

The Barrow Surveyors state that the stream anchor supplied for this vessel weighs 3 cwt., 3 qrs., 22 lbs.

The weight of the stream anchor required by Table 22 is 4 cwt.

It will be seen that the anchor supplied is 6 lbs., less in weight than required.

It is submitted that in view of the slight deficiency in weight, the anchor supplied might be approved for the figure 1.
