-----  
The Boiler Survey became due in April 1934.

A letter has now been received from the Kobe Surveyors, stating they are informed by the new Owners that as the vessel is to be employed in the coasting trade only, they do not desire to continue the classification with this Society.

The Classing Committee had the case before them on Tuesday, 5th instant, when it was decided to give instructions for the vessel's class to be withdrawn from the Register Book and three dots (...) to be inserted in lieu thereof, indicating withdrawal of class at Owners' request.

  
7th June, 1934.
