Steel Screw Steamer "CANTON MARU"; No.73384 in Register Book.

2820 tons gross. Built: 1928 - 10. Port: Osaka.

Owners: Osaka Shosen Kabushiki Kaisha.

Classed: 100A1 10,32 LMC.10,32
With Fbd. TS.10,32 CL.
No.1-32

The Boiler Survey became due in October last.

A letter has been received from the Kobe Surveyors, enclosing one from the Owners stating that they have decided not to continue this vessel's classification with this Society.

The Surveyors add, in explanation, that the vessel is engaged in service between Canton and Formosa, and as all of her Government Surveys are carried out at the latter port it is difficult for the Owners to arrange for the Society's inspections, and in this particular trade they do not find classification necessary.

The Classing Committee had the case before them on Tuesday, 8th instant, when they decided to give instructions for the vessel's character to be withdrawn from the Register Book and three dots (...) inserted in lieu thereof, indicating withdrawal of class at Owners' request.

10th January, 1935.
