A Special Survey No.3 (after an early No.3) became due in July 1933 and no part of the survey has been held.

The vessel has been laid up for some time and on the 31st July last action was deferred and the Owners asked to furnish the usual undertaking.

The undertaking has not been received, but the Owners under date of the 22nd ultimo write as follows:-

"Having duly considered this case, we have decided to withdraw this vessel from class. There is no prospect of her going to sea at present, and as far as we can see, no prospect of selling her. If we do eventually decide to put her to sea, we can, if and when that time comes, re-enter her into your class."

The year of grace expired at the end of July last.

The Classing Committee had the case before them on Friday, the 31st ultimo, when in all the circumstances they decided to give instructions for the vessel's character to be withdrawn from the Register Book and three dots (...) inserted in lieu thereof, indicating withdrawal of class at Owners' request.

6th September, 1934.
