The Boiler Survey, which became due on this vessel in April last, has been partly held, and to complete the same the Donkey Boiler requires to be examined.

The Genoa Surveyors now forward a translation of a letter from the Owners intimating that for reasons of economy they desire to transfer the classification of this vessel to the Registro Italiano.

The Classing Committee had the case before them on Tuesday, the 24th instant when they decided to give instructions for the vessel's class to be withdrawn from the Register Book and three dots (...) inserted in lieu thereof, indicating withdrawal of class at Owners' request.

26th July, 1934.
