On the 9th September last the Russian Authorities wrote in regard to the steamer "TOSNA", and stated that all vessels purchased by them abroad were classified directly by the Register of the U.S.S.R., and in view of this statement the vessel's class was withdrawn from the Society's Register Book and three dots (...) inserted in lieu thereof.

Inquiries in regard to the surveys outstanding on the above vessels have been addressed to the Owners from time to time without eliciting any information, and in the circumstances Mr. Helyer was requested to take the matter up with the Owners' Representatives. He has been unable, however, to obtain any news in the way of definite information as to the Owners' intentions in respect of the above inspections.

*It is submitted the classes of
these vessels be omitted from
the reprint of the Register Book*
