Lloyd's Register of Shipping.

Port NAGASAKI.

29th June, 1931.

CERTIFICATE No. 430.

This is to Certify that

ONE RIVETED STEEL PLATE AIR RECEIVER.

~~the undersigned Surveyor to this Society did at the request of~~
made by Messrs. Nagasaki Works, Mitsubishi Zosen Kaisha, Ltd., for
the Steel Screw Motor Ship "K A H O K U M A R U" Yard No. 491,
and marked as below, has been surveyed during construction by the
undersigned.

The material has been tested by the Surveyors to Lloyd's Register:
the scantlings are in accordance with the Society's Rules for a
working pressure of 427 lbs. per sq.in., and the workmanship is
good.

The Air Receiver having been tested in my presence on the 27th
March 1931: by hydraulic pressure to 627 lbs. per sq.in., showed
no signs of weakness and was found tight and sound in every
respect at that pressure.

Working pressure not to exceed 427 lbs. per sq.in.,

No. 430.
LLOYD'S TEST.
627 lbs. R
W.P. 427 lbs.
G.A. 27-3-31.

George Anderson
Surveyor to Lloyd's Register

This Certificate is issued upon the terms of the Rules and Regulations of the Society, which provide that:—

"While the Committee use their best endeavours to ensure that the functions of the Society are properly executed, it is to be understood that neither the Committee nor the Society are under any circumstances whatever to be held responsible for any inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any entry in the Register Book or other publication of the Society, or for any error of judgment, default, or negligence of the Surveyors, or other Officers or Agents of the Society."
