The Donkey Boiler Survey became due on this vessel in September, 1935 and the Main Boiler Survey in February last.

Enquiry has been made of the Genoa Surveyors from time to time regarding these surveys, and they now forward a letter from the Owners stating they have decided not to continue the vessel's classification with this Society.

It may be mentioned that this vessel holds the dual classification of Lloyd's Register and the Registro Italiano.

The Classing Committee had the case before them on Tuesday, 19th instant when they decided to give instructions for the vessel's character to be withdrawn from the Register Book and Three Dots (...) inserted in lieu thereof, indicating withdrawal of class at Owners' request.

21st May, 1936.
