

30th April, 1940.

Mr. Hill telephoned to say that a letter had been received in the London Office from the Springwell Shipping Co. Ltd. to the effect that they had been requested by the Ministry of Shipping to take over the management of the Danish steamer "SKAGERAK" No. 33810 in the Register Book.

She is at present classed with the Germanischer Lloyd, but their instructions were that she was to be classed with this Society and new Freeboard Certificates issued accordingly. *The vessel is at present at Sunderland.*
