The Second Special Survey No.2 became due on this vessel in February, 1932 and no part of the survey has been held.

The vessel being laid up, the usual undertaking has been furnished, and as required by the Committee, a general examination was carried out by the Amsterdam Surveyors in May, 1934, when repairs were recommended to be carried out to some deck plates in the bridge space and a bottom plate of the forward bulkhead of the deep tank.

A report recently appeared in the Shipping Papers that the vessel had been sold to Italian buyers, and in reply to enquiry the Amsterdam Surveyors state that the sale has been definitely completed.

The Surveyors add that a Representative of the new Owners have informed them that it is not intended to maintain this Society's class, so that the vessel will now hold only the Registro Italiano class.

The Classing Committee had the case before them on Friday, the 29th ultimo, when in all the circumstances instructions were given for the vessel's class to be expunged from the Register Book with a Red Line (3,35), indicating non-compliance with the Society's Rules.
