

Barges "No.1" and "No.2" owned by "La Columbia" Soc. Marit.

The question of the outstanding Special Surveys No.1 of these vessels is fully stated in endorsement dated 16.3.35, following which Mr. Ormiston was informed that unless the Owners were prepared to agree to a survey by one of the Society's Surveyors when these barges were dry docked it would not be possible to continue their class.

A letter has now been received from Mr. Ormiston stating that he has had further conversation with the Owners, and their Marine Superintendent, Captain Lugli, has agreed to a survey by one of this Society's Surveyors at the next dry docking, which will probably be in October or November next. Mr. Ormiston presumes that in all the circumstances the class will be continued.

The year of grace expired in each case in 2,35.

The case is submitted for the consideration of the Committee.
