The Screwshaft Survey became due on this tug in April last.

In reply to enquiry the Secretary of the Admiralty now writes that as this tug is a Naval vessel with no certificate of British Registry, it is not desired to retain her classification in the Society's Register Book.

The Committee had the case before them on Tuesday, the 23rd instant, when they decided to give instructions for the vessel's class to be withdrawn from the Register Book and three dots (. . .) inserted in lieu thereof, indicating withdrawal of class at Owners' request.

25th June, 1936.
