 Steam Trawler BS 7,33  
 s.s.Bcl.No.3-6,31 TS CL(N) 7,33  
 Bcl. 7,33

-----

The Second Special Survey No.1 became due on this trawler in June last.

The class is subject to indented plating being dealt with at the Owners' convenience, and to steel deck over bunkers being dealt with as found necessary at the first convenient opportunity, also to the centre furnace and all combustion chamber back plating of the boiler being specially examined before the vessel is again employed.

In July last the Society's Surveyor at Barcelona wrote that the vessel had been sold to Sr. D. Gumersindo Roura and that she had left for Cadiz where repairs were to be effected.

The Cadiz Surveyor subsequently reported that repairs to the vessel were considerably advanced, but that he was unable to obtain any information in regard to the classification of the ship.

In reply to further enquiry the Cadiz Surveyor now states he has been informed by the Owner's son that the Owner does not intend to continue the class of the ship with this Society.

The Surveyor adds that the repairs now being carried out on the vessel would not satisfy the requirements of the Society.

The Classing Committee had the case before them on Wednesday, the 7th instant, when in the circumstances they
