Dear Sirs,

With reference to the Survey now being held on the Steamer Juan I beg to inform you that, in consequence of the condition of this vessel's furnaces & combustion chambers it will be my duty to recommend to the Committee that the same be further examined before the end of January, 1935 as provided for in the Rules, extracts from which appear on the other side:—the continuance of the vessel's character in the Society's Register Book to be subject to the due fulfilment of this condition.

I am,

Yours faithfully,
