342 Argyle Street,
Glasgow, May 29th 1906.

The Secretary,
Glasgow.

Sir,

With reference to the General Secretary's letter of the 26th inst., enclosing a further letter from the owners of the steamer "Camosun" I beg respectfully to say that so far as the Electric Lighting of the vessel is concerned the firm who installed it (Messrs Bow McLachlan & Co.) are by no means novices at ship lighting, and this was in what I believe to be their usual style, it was in accordance with the Rules of this Society and to my satisfaction, and I am not aware of there being anything about it to involve the vessel in unusual danger of fire.

I am, Sir,

Your obedient servant,

"H. Gardner-Smith".
