My dear Spry

Thanks for your letter  
 re. "Camossan". The girder  
 is 7'-8" from centre line  
 & the joggle of shell plating  
 is kept just clear of the  
 shell edge. There are  
 two lightning holes in  
 the first space 24" x 15"  
 2 ft apart & 10" from  
 centre girder to side girder.  
 There is only one mark hole  
 in second space 24" x 15"  
 & 1-0 from side girder

I have amended the  
 sketch which I think  
 will make it clear.

Hoping you & your  
 wife are well & with  
 kind regards to self &  
 colleagues.

Yours truly  
 J. S. Mares.
