71, Fenchurch Street,  
LONDON, E.C.3.

10th June, 1938.

Dear Sirs,

MESSRS. JOHN READHEAD & SONS ENGINE NO. 515.

In connection with the Superheaters we are supplying for the above, we have pleasure in enclosing in triplicate copies of the following drawings showing our "RB" type Superheater, and shall be glad if you will let us have your approval of these as soon as possible, returning one print of each duly signed and stamped as approved, together with your Survey Request Forms.

MN.8760A - Arrangement of Superheater.  
MA.6280A - Detail of Headers.  
MB.8630A - " " Elements.  
ML.742A - " " Elbows.

The headers for this contract will be made from mild steel blooms selected from those in stock at our Works, manufactured by Messrs. Steel, Peech & Tozer to your classification, mill certificates being available at our Works.

The elements will be made from solid cold drawn mild steel tubing to our Specification No. X.42, manufactured by Messrs. Tubes Ltd., Birmingham, the material being made by the Open Hearth process, and the tubes tested in accordance with your rules and surveyed by your Inspector at their Works before despatch, the tube makers supplying mechanical test certificates and mechanical analysis.

The cast steel elbows, selected from our stock, have been manufactured by Messrs. Renton & Fisher Ltd., Bathgate, to your requirements, inspection and hydraulic test at their Works before despatch.

Messrs. Lloyd's Register of Shipping.

10th June, 1938.

The completed apparatus will be subject to your final hydraulic test and survey at our Works before despatch.

We enclose one copy of our sub-let order No. 12138M/27728 on Messrs. Tubes Ltd., and would say that two copies of this order have been passed on to your Manchester office for their information.

Yours faithfully,  
For: THE SUPERHEATER COMPANY, LIMITED.
