

Boiler
endorsement

W130-0146

Shipbuilders: Messrs. *John Readhead.*

Yard No. *515*

Makers: Messrs. *John Readhead*

Eng
Boiler No. *515*

It is submitted that the plan of *auxiliary*
boiler merits approval for a working pressure of *220 lbs*
per sq. *inch*, provided the boiler be constructed under the
usual conditions of survey and testing.

The Steel Testing Surveyors should be advised regarding
the tensile strength of the *shell plates, butt straps, girders*
viz: and manhole compensating plate viz 29-33 tons
per sq inch.

Return plan.

Retain copy.
