71, Fenchurch Street, E.C. 3.

15th December 1921.

Encs.

Dear Sirs,

Reverting to your letter of the 9th instant enclosing copies of the test certificates for the three main boilers of the steamer "MATADI", I have to acquaint you that the Owners inform the Society's Surveyors at Antwerp that the certificates in question do not satisfy the requirements of the Belgian Law for boilers and that in this case the Government Surveyors require a certificate stating that the boilers were tested under hydraulic pressure by a Surveyor to this Society, before the lagging was put on.

In the circumstances I return the copies of the boiler test certificates forwarded by you and have to request that you will prepare and forward to this Office 3 certificates on Form 10 embodying the statements contained in the Form "Cert.1" and adding thereto after the words "hydraulic pressure" the phrase "before the lagging was put on".

I am, Dear Sirs,

Yours faithfully,

The Surveyors,  
Sunderland

Secretary.
