communications to be addressed to
SURVEYORS.

E. Sir,

With reference to your letter of the 10th instant enclosing copies of the test certificates for the three main boilers of the steamer "MATADI" we have to inform you that it appears that these certificates do not satisfy the requirements of the Belgian Law for Boilers, and the Surveyors Government require a certificate stating that the Boilers were tested under hydraulic pressure before the lagging was put on, by a Surveyor to this Society.

We shall, therefore, be glad to receive the necessary certificate at your earliest convenience, and return the 3 copies of test certificates herewith.

We are, Sir,

Yours faithfully,

The Surveyors,
