

The Dairen Kabushiki Kaisha own 50 vessels, 17 of which were classed with this Society.

Only very few of them appear in Lloyd's Index, and from a survey of the British Corporation Register, it appears that, at present, very few of them are classed with that Society; although in their March-April Supplement, two of the unclassed vessels, of larger size, appear as classed with the B.C. for the first time.
