71, Fenchurch Street, E.C. 3.

7th January, 1921.

M. Dear Sirs,

With reference to your First Entry Report No. 1304 on the S. S. "CANADIAN MARINER", I shall be glad if you will be good enough to state whether the sizes of the poop and forecastle deck beams, the width of the bridge deck stringer plate, and the after end thicknesses of the strakes A, B, & C are as stated in your report, as these sizes differ from those shown on the approved plans and in the sister vessels. You should also state whether the size and thickness of the centre girder brackets at the intermediate framing in the double bottom are as shown on the approved plans and not as stated in the report.

I am, Dear Sirs,

Yours faithfully,

The Surveyors,

HALIFAX, N. S.
