Lloyd's Register of Shipping.

Port of Bergen,

26th June 1937.

This is to Certify that I have

Surveyed the Boilers and Machinery of the steel screw steamer
"ANGLO" 2978 Tons Gross of Panama City

and that I have transmitted to the Committee of Lloyd's
Register of Shipping, London, a Report stating that all
recommendations made by me in connection therewith have
been carried out to my satisfaction, and that I have
Recommended that the record of L.M.C. 6,37

be made in the Register Book in the case of this vessel, when the
survey has been completed and subject to Starboard bilge pump casing
and H.P. cylinder liner being renewed and to tunnel bearings (with
exception of two) being specially examined before the end of
January 1938 and to St.B. furnace of St.B. Boiler being specially
examined before the end of June 1938.

S. A. Ride jr.

Engineer Surbeyor to Lloyd's Register.

This Certificate is issued upon the terms of the Rules and Regulations of the Society, which provide that:—
While the Committees of the Society use their best endeavours to ensure that the functions of the Society are properly
performed, it is to be understood that neither the Society nor any Member of any of its Committees is under any circumstances
to be held responsible for any inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any
entry in the Register Book or other publication of the Society, or for any error of judgment, default or negligence of any of its
Officers or any Member thereof, or the Surveyors, or other Officers or Agents of the Society.
